

Psychological Services

What It Is

School psychology is a profession dedicated to promoting healthy learning and adjustment among all school-age children (School Psychological Services Handbook, 1982).

What We Do

School psychologists help students succeed academically, socially, behaviorally and emotionally. They collaborate with educators, parents, and other professionals to create safe, healthy and supportive learning environments that strengthen connections between home, school, and the community for all students.

Some of the services we provide include:

- Working to increase student achievement by assessing barriers to learning and helping determine the best instructional strategies to improve learning
- Working with parents and school teams to enhance home-school collaboration
- Working within a multidisciplinary team to evaluate eligibility for special education services
- Facilitating parent, teacher and student understanding of a variety of disabilities and the impact on school, family and community functioning
- Assisting teachers in identifying appropriate intervention procedures and evaluating intervention outcomes
